---

## To Do:

- Drain water heater, remove sediment and test pressure relief valve
- Inspect attic insulation
- Have furnace professionally inspected and/or serviced
- Replace furnace filters
- Clean fireplace flues and inspect for damages
- Reseal cracks in driveway or walkways
- Fertilize and reseed lawn
- Recaulk around windows, doors, siding, gutters, etc.
- Test sump pump
- Reverse ceiling fans clockwise
- Drain hoses and sprinkler systems
- Turn off and insulate outdoor water faucets
